P. Pinkerton
D. N. Raine

J. F. Soothill
F. H. Stone
M. L. N. Willoughby

Appointed by the British Paediatric Association and the British Medical Association.

President of the British Paediatric Association

Editor, *British Medical Journal*

Notice to Contributors

Papers for publication should be sent to the Editors, *Archives of Disease in Childhood*, B.M.A. House, Tavistock Square, London WC1H 9JR. Submission of a paper will be held to imply that it contains original work which has not been previously published. Permission to republish must be obtained from the Editors.

Short reports. Case reports, brief laboratory observations, preliminary communications, and other short papers may be submitted for this section. Length must not exceed two printed pages of the *Archives*, i.e. in general not more than 1000 words of text, two figures or tables, and eight references. Single case reports will usually only be considered in this form.

For guidance on ethical aspects authors should refer to an Editorial in this journal (1967, 42, 109).

One galley proof will be sent to the author submitting the paper.

Reprints. Fifty reprints are supplied free and further reprints may be ordered when the proof is returned.

Authors should check the following requirements before submitting a paper:

- (1) Scripts to be typed in double spacing.
- (2) Metric system to be used; temperature in Centigrade.
- (3) Institution(s) where work done to be stated.
- (4) Address of author(s), if other than above, to be given as footnote.
- (5) Name and address of author supplying reprints to be given at end of paper.
- (6) Figures: (a) provided with a caption, typed on a separate sheet, (b) referred to in the text.
- (7) Diagrams to be drawn on stout white paper; any lettering may be lightly inserted in pencil.
- (8) Photographs to be on glossy paper unmounted, and trimmed to include only relevant portion. Any lettering, etc. to be inserted should be indicated on a separate transparent sheet.
- (9) Coloured illustrations may be considered, but the author will usually be asked to contribute to the cost.

(10) Tables (numbered in Roman numerals) to be provided with a title.

(11) References in the text to conform precisely to the style current in the *Archives*. Papers with one or two authors: name author(s) on each occasion the paper is cited. Papers with three authors: name all three when paper is first cited; use—*et al.* in subsequent citations. Papers with more than three authors: use—*et al.* in each citation.

(12) References to be listed alphabetically with full title of article or book; title of journal to be given in full.

(13) Summary to be typed on a separate sheet, and confined to what was done, and what was concluded.

Notice to Advertisers

Applications for advertising space and rates should be made to the Advertisement Manager, *Archives of Disease in Childhood*, B.M.A. House, Tavistock Square, London WC1H 9JR.

Notice to Subscribers

From 1 January 1973 the *Archives* will be published MONTHLY and the annual subscription rate will be £12.00 in the United Kingdom and the Republic of Ireland, and £13.00 (U.S.A. \$31.25) by surface mail in all countries overseas. Payments for overseas subscriptions should be made in sterling, i.e. £13.00 and sent by Mail Transfer—Charges Remitter—through a Bank to the British Medical Association. Orders can also be placed locally through any leading subscription agent or bookseller. (For the convenience of readers in the U.S.A. subscription orders, with or without payment, can also be sent to: BRITISH MEDICAL JOURNAL, 1172 Commonwealth Avenue, Boston, Mass., 02134. All inquiries, however, must be addressed to the Publisher in London.)

All inquiries regarding Air Mail rates and single copies already published should be addressed to the Publisher in London.

SUBJECT INDEX

1972, Volume 47

- Abdomen, intra-abdominal injuries in battered baby syndrome, 211, 317, *P*.
- Aboriginal children, Australian, chronic chest disease in, 897
- Absorption, small intestinal, of glucose, water, and sodium, effect of bile acids, 153, *P*.
- Accelerometer, pixie, used in diagnosis of prolapsing posterior cusp of the mitral valve, 149 *P*.
- Accidents, repeated, investigation into family backgrounds, 396
- Achalasia of the cardia in sibs, 115
- Adipose tissue, functional development, 670, *P*.
- Adrenal axis, functional tests in children with measurement of plasma cortisol by competitive protein binding, 66
 - hyperplasia, congenital, diagnosis by measurement of plasma 17-hydroxyprogesterone, 62
 - hyperplasia, congenital virilising, incidence of salt-losing form: short report, 302
 - hypoplasia and congenital absence of pituitary gland, short report, 136
 - response to tetracosactrin in newborn, 152, *P*.
- Aganglionosis, colonic, zonal, a variant of Hirschsprung's disease, 233
- Age, skeletal heights, and weights of Jamaican adolescents with sickle cell anaemia, 519
- Albumin administration, effect on phototherapy for neonatal jaundice, 241
 - in management of neonatal hyperbilirubinaemia, 250
 - testing meconium for, in screening for cystic fibrosis: short report, 131
- Aldosterone, defective aldosterone synthesis: 18-hydroxylase defect, 673, *P*.
- Alimentary tract, obstruction, total body water content of neonates, 941
- Allergy, and house dust mites: annotation, 327
- Amino acid metabolism, abnormal, transient neonatal hyperlipidaemia, and hypermethioninaemia: short report, 134
 - — and peptides, absorption, in variant of Hartnup disease and coexistent coeliac disease, 798
- Anaemia, haemolytic, acute, associated with cytomegalovirus infection: short report, 474
 - sickle cell, heights, weights, and skeletal age of Jamaican adolescents with, 519
- ANNOTATIONS: Breast milk and defence against infection in the newborn, 845
 - Cystic fibrosis—assessing the effects of treatment, 1
 - Cytotoxic agents in childhood glomerulonephritis, 159
 - House dust mites and allergy, 327
 - Neonatal hypoglycaemia—a critical reappraisal, 679
- Antibiotics, choice in management of children with peritonitis complicating acute appendicitis, 317, *P*.
 - prophylactic, use after premature rupture of membranes, 401
- Antibody, anti-Australia, and antigen, in transfused children with thalassaemia, 760
 - food, in serum, screening test for coeliac disease, 594, 154, *P*
- Anticonvulsants folic acid replacement in folate-deficient children: short report, 309
- Antigen, Australia, and antibody in transfused children with thalassaemia, 760
- Anus and rectum, congenital anomalies: personal practice, 960
- Aorta, coarctation, *see* Coarctation
- Apnoeic attacks, changes in heart rate, blood pressure and pulse pressure in newborn babies, 405
- Appendicitis, acute, complicated by peritonitis, choice of antibiotics, 317, *P*
- Asthma, exercise-induced, time course of effect of disodium cromoglycate on, 419
 - physiological and clinical spectrum, respiratory function studies, 874
 - standardization of exercise tests, 882
- Atrial septal defect, genetics, 581
- Australia antigen and antibody in transfused children with thalassaemia, 760
- Azathioprine, in childhood glomerulonephritis, 159
- Bacterial flora, respiratory tract, in cystic fibrosis, 1950–1971, 902
 - infection, blood neutrophil response, first week of life, 747
 - — in cystic fibrosis patients 3 weeks to 31 years, 908
- Bacteriuria, covert, renal concentrating ability in 5-year-old girls: short report, 141
 - neonatal and 'Uriglox', 674, *P*.
- Batten's disease, *see* Lipofuscinosis, neuronal ceroid
- Battered baby syndrome, intra-abdominal injuries, 211, 317, *P*.
- Bile acids, effect on small intestinal absorption of glucose, water, and sodium, 153, *P*
- Biliary atresia associated with prenatal infection by *Listeria monocytogenes*, 656
- Bilirubin conjugation inhibitors, breast milk, in neonatal hyperbilirubinaemia: correspondence, 984
 - serum, sequential trial of effect of phenobarbitone on in preterm infants, 621
- Biopsy, peroral mucosal, complicated by intramural jejunal haematoma: correspondence, 676, *P*
- Birth trauma, severe, long-term and immediate effect, 835, *P*.
- Blood flow, pulmonary, in newborn, 151, *P*., 315, *P*

- pressure, heart rate, and pulse pressure, changes during apnoeic attacks in newborn babies, 405
- Bone age and growth in juvenile diabetics, 589
- Breast milk and defence against infection in the newborn, annotation, 845
- Breathing, maintenance in newborn lambs, 151, *P.*
- Bronchiectasis, generalized, due to extensive deficiency of bronchial cartilage, 423
- Bronchiolitis and RS virus; correspondence, 321
- Bronchitis, wheezy, exercise-induced bronchial lability in children with history of, 578
- Calcification of the carotid siphon, common finding in infancy and childhood, 355
- of iliac arteries in newborns and infants, 364
- Calcium absorption by premature infants using stable isotope, 673, *P.*
- sodium, and magnesium levels in nails in cystic fibrosis of the pancreas, 495
- Calories, high calorie/osmolar feeding and hypertonic dehydration, 257
- Candidiasis, granulomatous, chronic, immunological studies, and effect of treatment with dialysable transfer factor, 670, *P.*
- systemic, use of 5-fluorocytosine, infancy, 954
- Carbamylphosphate-synthetase deficiency, neuropathological observations, patients and two sibs, 47
- Carbohydrate absorption in malnourished children, comparison of three methods used to assess, 531
- Cardia, achalasia, in sibs, 115
- Cardiff children, haemoglobin levels, nursery school age, 772
- Cardioversion, direct current, in congenital atrial flutter: short report, 833
- Carotid syphon, calcifications, common finding in infancy and childhood, 355
- Cartilage, bronchial, extensive deficiency causing generalized bronchiectasis, 423
- Catecholamine excretion and effects of ephedrine therapy in ketotic (idiopathic glucagon unresponsive) hypoglycaemia, 924
- Catheter-tip transducer for continuous measurement of blood oxygen tension, 675, *P.*
- Cellular development of some human organs before birth, 652
- growth and nutrition, 670, *P.*
- Central nervous system degenerative disease, investigation: review article, 10
- Cerebrospinal fluid, creatinine phosphokinase in, value in management of myelomeningocele and hydrocephalus, 672, *P.*
- Chest disease, chronic, in Australian aboriginal children, 897
- small, in children, investigation of bone diseases and limited rib growth, 12
- Chinese infants, cytomegalovirus mononucleosis, two cases, 643
- 51-Chromium editic acid, estimation of glomerular filtration rate from plasma clearance of, 613
- Chromosome anomalies, plasma growth hormone in: short report, 307
- X, linked inheritance of decreased thyroxine-binding globulin, 635
- Circulation, collateral, in coarctation of aorta, infancy and children, 950
- Clicks, whoops, and honks, 5 children with midsystolic click—systolic murmur syndrome, 731
- — — diagnosis by pixie accelerometer of prolapsing posterior cusp of the mitral valve, 149, *P.*
- Coagulation defects and hypothermia, newborn: short report, 819
- disseminated intravascular, in meningococcal infection: correspondence, 324
- in haemolytic uraemic syndrome, 766, 315, *P.*
- in preterm infants with respiratory distress and intracranial haemorrhage, 564
- Coarctation of aorta, collateral circulation, infancy and childhood, 950
- — — postductal, causing myocardial ischaemia and heart failure, first week of life, 719
- Coeliac disease, childhood, constipation, 238
- — — and coexistent Hartnup disease variant, absorption of amino acids and peptides, 798
- — — during gluten withdrawal, controlled measurement of exploratory movements: short report, 823
- — — food antibodies in serum as screening test, 594
- — — and IgA deficiency: correspondence, 321
- — — some still controversial aspects; personal practice, 292
- — — suspected, serum immunoglobulins and food antibodies in, 154, *P.*
- — — untreated, increased excretion of 5-hydroxy-indoleacetic acid in urine, 442
- Colon, zonal aganglionosis, a variant of Hirschsprung's disease, 233
- Competitive protein binding method for plasma cortisol, functional test of adrenal axis in children, 66
- Congenital heart disease, lung mechanics in 28 infants 1 to 32 weeks old, 707
- Conjugation inhibitors and early neonatal hyperbilirubinaemia, 415
- Constipation in childhood coeliac disease, 238
- Continuous positive airway pressure (Gregory box) in treatment of RDS in newborn, 674, *P.*
- Convulsions, febrile, aetiology, pregnancy and perinatal factors, 171
- Convulsive disorder, national inquiry, 150, *P.*
- Copper, and zinc, plasma levels, in acute leukaemia, 671, *P.*
- Coronary heart disease, early, serum lipids and lipoproteins in children from families prone to, 808
- CORRESPONDENCE: Breast milk bilirubin conjugation inhibitors in neonatal hyperbilirubinaemia, 984
- Coeliac disease and IgA deficiency, 321
- Cystic fibrosis care—further considerations, 984
- Disseminated intravascular coagulation in meningococcal infection, 324

- Correspondence—* Growth pattern in a boy with thyroxine-binding globulin deficiency, 322
- cont.* Hydroxyproline excretion in idiopathic, congenital, and paralytic scoliosis, 476
- Intramural jejunal haematoma complicating peroral mucosal biopsy, 676, *P.*
- RS virus and bronchiolitis, 321
- Screening for cystic fibrosis, 837
- Spontaneous femoral artery thrombosis and intermittent claudication in childhood nephrotic syndrome, 836
- Transient gluten intolerance, 155
- Corticosteroids and corticotrophin, night and day growth hormone levels during treatment with, 605
- and 17-oxosteroids, changes in excretion in urine during childhood and adolescence, 316, *P.*
- Cortisol, plasma, measurement by competitive protein binding assay, obtained during investigations of adrenal axis in children, 66
- Creatinine phosphokinase in CSF, value in management of myelomeningocele and hydrocephalus, 672, *P.*
- Croup, acute, management: personal practice, 661
- Cushing's syndrome in childhood: postoperative management, 597
- Cyclic AMD (3,5, cyclic-adenosine monophosphate) in nephrogenic diabetes insipidus, 794
- Cyclophosphamide, in childhood glomerulonephritis, 159
- Cystic fibrosis, anomalous, sweat chloride levels during antibiotic therapy: short report, 132
- — bacterial flora of respiratory tract, 19501–971, 902
- — bacterial infection, patients 3 weeks to 31 years, 908
- — care—further considerations: correspondence, 984
- — insulin excretion, 152
- — sodium, calcium, and magnesium levels in nails of children with, 495
- — pulmonary resection, results in 23 cases, 1957–1970, 499
- — screening by testing meconium for albumin: short report, 131, 837
- — treatment of prevention of pulmonary complications, 5
- Cystine, plasma levels in homocystinuria, 150, *P.*
- Cytomegalovirus infection presenting as acute haemolytic anaemia in infant: short report, 474
- mononucleosis in Chinese infants, 643
- Cytotoxic agents in childhood glomerulonephritis: annotation, 159
- Daunorubicin, results in childhood leukaemia, 272
- De Morsier syndrome (growth hormone deficiency) associated with septo-optic dysplasia: short report, 973
- Deaths, infant, confidential inquiry into 226 cases, 697
- Degenerative disease of the central nervous system, investigation: review article, 163
- — paediatric onset, 670, *P.*
- Dehydration, hypertonic, and high calorie/osmolar feeding, 257
- Dental caries: review article, 849
- Diabetes mellitus, familial insulin resistant, 153, *P.*
- insipidus, nephrogenic, congenital, failure to detect the carrier: short report, 137
- — nephrogenic effects of 3,5 cyclic-adenosine monophosphate, 794
- juvenile, growth and bone age, 589
- transient neonatal: short report, 134
- Dialysis, peritoneal, survival for 99 days, observation of hyperlipidaemia: short report, 139
- Dialysable transfer factor, immunological studies in chronic granulomatous candidiasis and effect of treatment with, 670, *P.*
- Diazepam, effect on temperature regulation of neonates when administered to mothers during labour, 107
- Diazoxide, effects of fetal exposure, investigation of four cases, 537
- response to in ketotic hypoglycaemia (idiopathic glucagon unresponsive hypoglycaemia), 544
- Diencephalic syndrome of infantile emaciation, analysis of literature and report of further 3 cases, 338
- Diet, effect on water intake and urinary solute concentrations in infants, 673, *P.*
- Digoxin, plasma levels, effect of exchange transfusions: short report, 814
- Dip inoculum urine culture, evaluation: short report, 977
- 2,3-Diphosphoglycerate level in erythrocytes in primary trisomic Down's syndrome, 672, *P.*
- Disodium cromoglycate, time course of effect on exercise-induced asthma, 419
